9. PHYSICAL EVIDENCE <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		

San Antonio, Texas
January 24 1969

Mrs. [REDACTED]
[REDACTED]
San Antonio, Texas.

Lt. Col. Hector Quintanilla, Jr.
FTD (TDET/ UFO)
Research and Aerial Phenomenon Div.
Wright Patterson AF Base, Ohio 45433

Dear Sir:

I am Mrs. [REDACTED], of the above address, I have been contributing U F O , material, to the department of UFO at the University of Colorado, Under the authority of Mr. E. U. Condon,.

On January 15, 1969 , I sent in the material, (Black Discs) To That same address, not knowing that the University office had closed , and been transferred to Wright Patterson AF Base .

The same was sent back to me and suggested that I send it to your department.

All Papers are inclosed, together with his letter to me on the Subject, and I am sending to you in this letter.

I sighted this phenomenon , while visiting in the Lackland area on the third weekend in October 1968,.

I don't know if this material , will be of any help for your department or not but if so you are entirely welcome to same , I never discuss My work with others and will stand behind any and all of my work You may use my name if it will be of any service to your department.

(Signed)

Yours very sincerely,
[REDACTED]
[REDACTED]
San Antonio, Texas, 78207

P.S. if I can be of any more help to you, or if there are any questions you would like to ask feel free to do so. This is my fourth report. [REDACTED]
Black Discs
1st. flying saucers.
2nd. flying Moons.
3rd. Burning Jags.

20 January 1969

Mrs. [REDACTED]

San Antonio Texas

Dear Mrs. [REDACTED]

Thank you for your letter of

The report on the Scientific Study of Unidentified Flying Objects conducted by a group at the University of Colorado for the U.S. Air Force Office of Scientific Research was delivered to the National Academy of Sciences in Washington on November 15, 1968. The project office here is closed.

I suggest that you send the report of your sighting to:

Lt. Col. Hector Quintanilla, Jr.
FTD(TDET/UFO)
Research and Aerial Phenomenon Div.
Wright Patterson AF Base, Ohio 45433

Sincerely,

E. U. Condon
E. U. Condon

Introduction.

- (1) large disc, about six inches in diameter.
- (2) Two smaller discs, about half the size of the large disc or styled from now on as the (mother Disc.
- (3) Seven smaller discs, below mother disc, and on different angles than the two larger discs, on left and right sides

There was Three performances, of these Discs The first being a fixed pattern already. Then all of the smaller discs just dissappeared. leaving only the mother disc visible. none of these Discs disintegrated. They were there and then they were not there, all in the twinkling of an eye.

FACTS.

There was three phases of these discs. the first one being in a fixed pattern already. The large mother disc, about six inches in diameter Two smaller discs, about half the size of the mother disc. and one on the left one on the right side of the mother disc, very clear, and very plain. Then between and below the right and left discs beneath the mother disc, seven smaller ones about half the size of the right and left discs. one of the smaller discs was directly below the mother disc, and the other six scattered at different angles from the mother disc. . The mother Disc stayed in a fixed place, and the other ones just dissappeared. none of them disintegrated, first they were there and then they were gone.

The way I determined the positions, of this phenomena, was by their position above the Horizon.

Then I turned my eyes toward the mother disc, The two larger discs were emerging from the opposite sides of the mother disc, and going to the relative same positions as was in the first phase, the seven smaller discs, each came from different slots and formed the same position. and at the angles. as before. in the first phase. Forming no pattern of meaning that I could see or grasp. their color being this same deep soft black as before. even in the rays of the rising sun there was no change in their color or reflection of the sun rays.

THEORY.

(This is my only possible conclusion) Is it possible that these Discs could be a new method of photography unknown to us at this time. I remember some time ago, a Jet pilot chased one of these discs, and the faster he flew, the faster the disc speeded. The pilot was called off the chase. I believe that there could have been a barrier thrust between the jet and the disc, that might have added the speed of the Jet to the speed of the disc, to where it would make it impossible for the disc to be over taken.

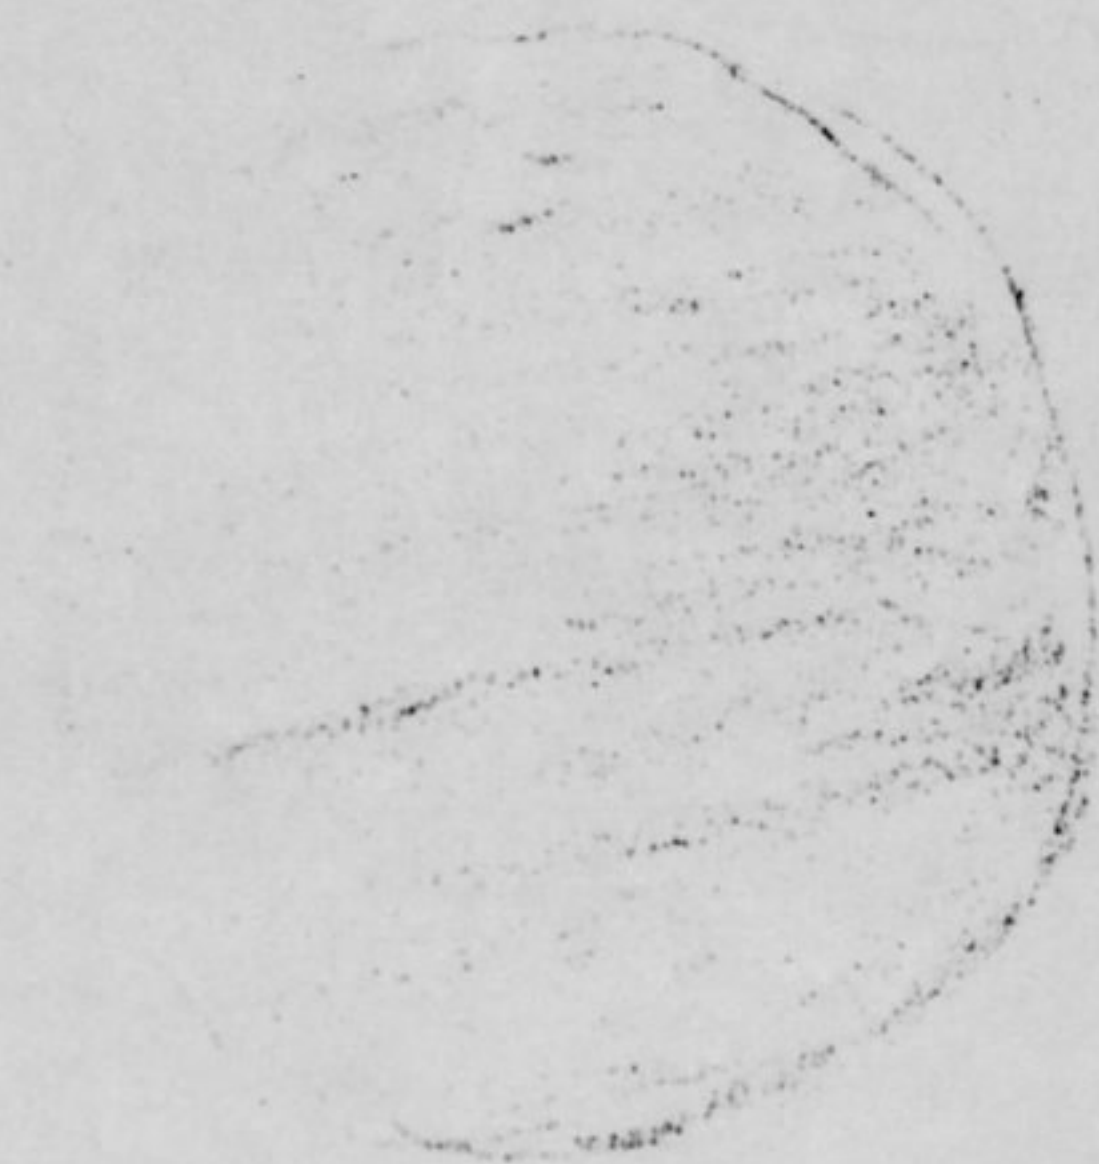

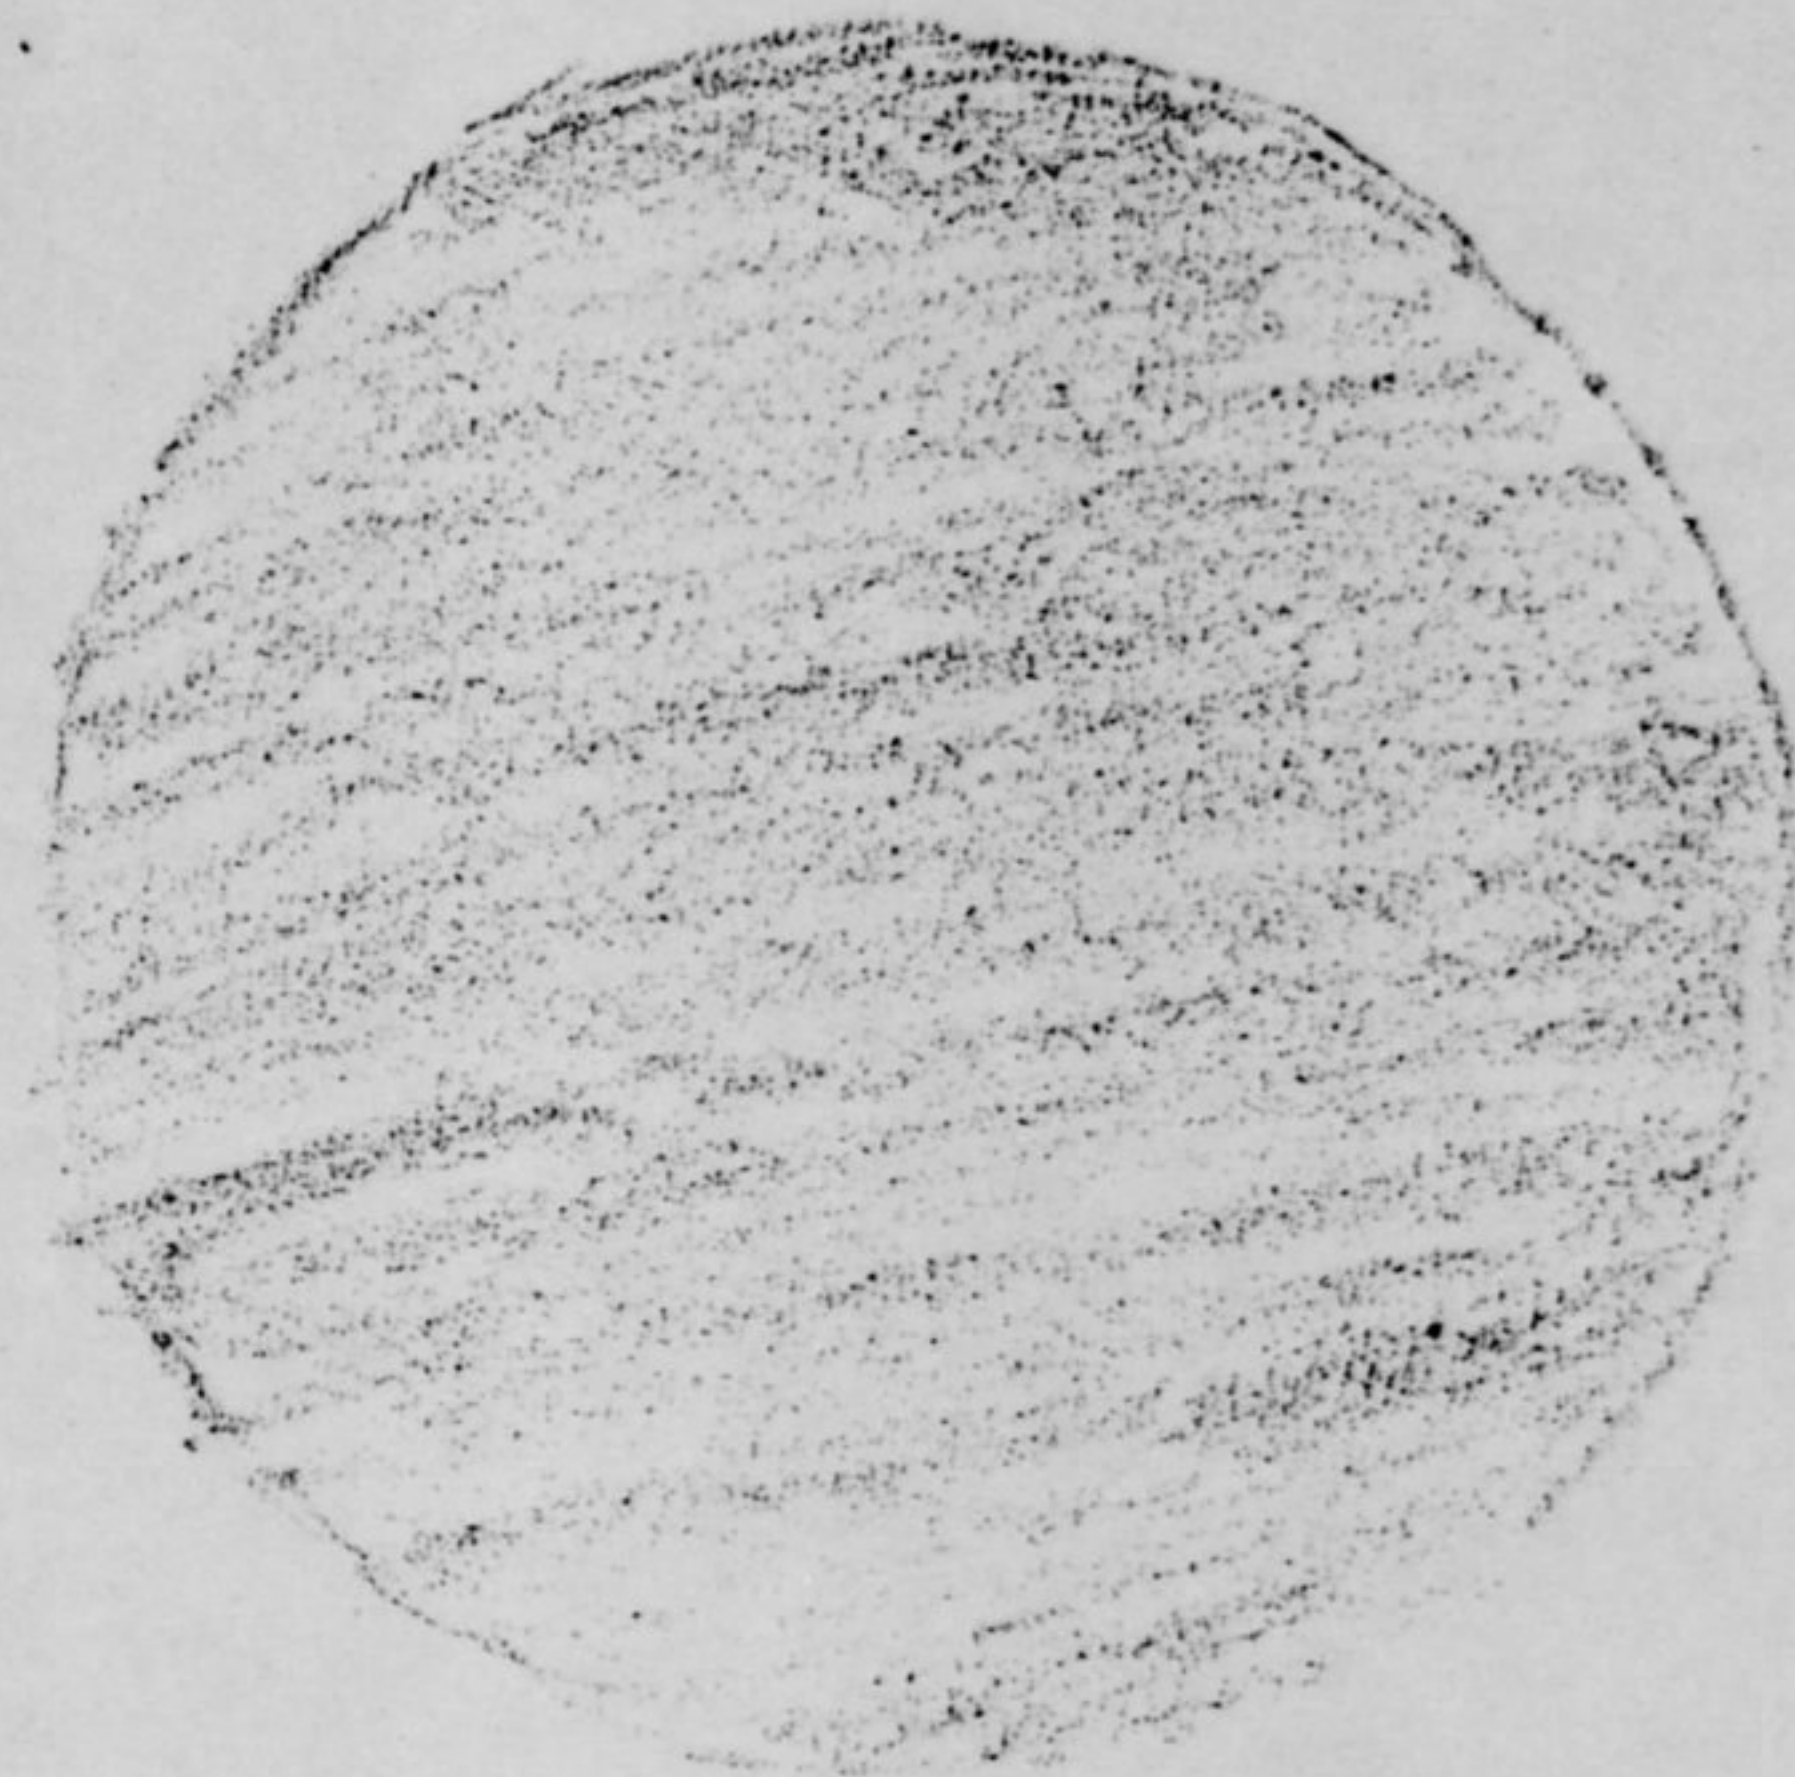

The reason for the photography theory is the site and position of the discs should these discs have located at any of the rest of the points of the compass they would have been over the denser portion of San Antonio. As was the location of them they could view Lackland and a good portion of Kellyfield, which lies to the South east of and adjoins Lackland. I hope these papers will help you in your department, if so you are welcome to them without further claim or proffer of money.

Also if you wish to use my name on my work in your department Use it as you wish. And on oath I will swear to uphold any thing I have ever written and will back any and all of my work Drawings on separate pages depict the scenes herein discribed.

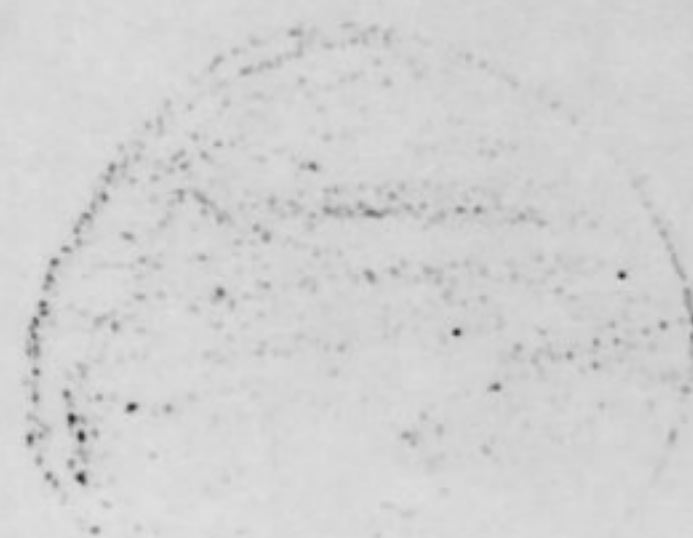

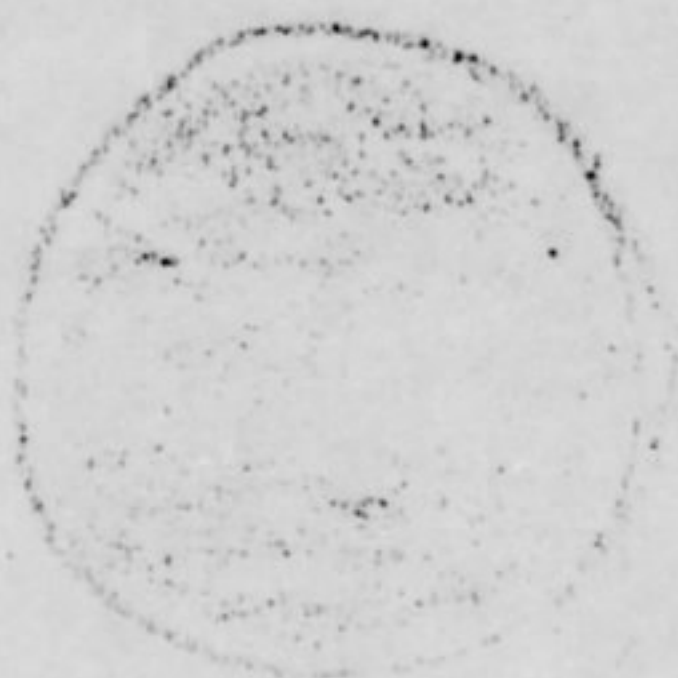

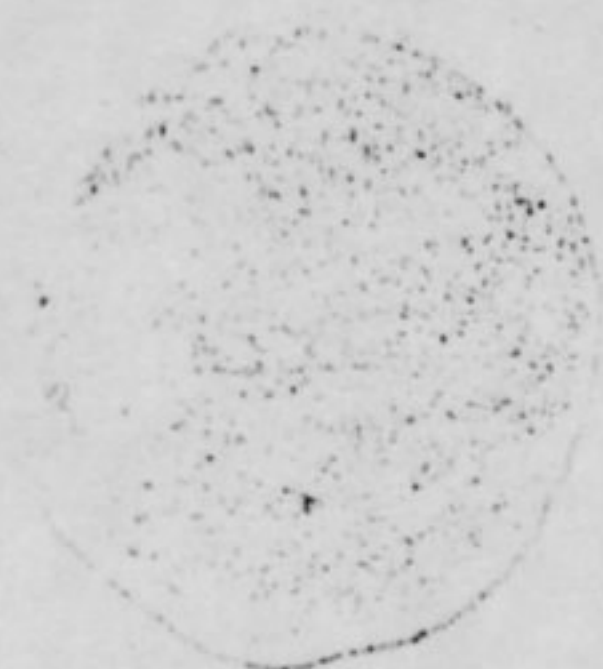

Yours very sincerely

San Antonio, Texas.

FIRST VIEW

THESE SEVEN SMALLER ONES FEEL IN A
NEXTER SKEETER MANNER NO PATTERN
THAT I COULD DISCERN, EACH EXHIBIT
THEIR COLOR WAS ALWAYS THE SAME
DEEP SOLID BLACK

BLACK, EACH DISC CAME
 PERHAPS CHARCOAL BLACK
 THE REMARKABLE FEATURE OF
 THIS PHENOMENA WAS THAT NONE
 OF THESE DISCS CHANGED THEIR
 RELATIVE POSITIONS, AS IF CONTROLLED
 BY A TIMER.

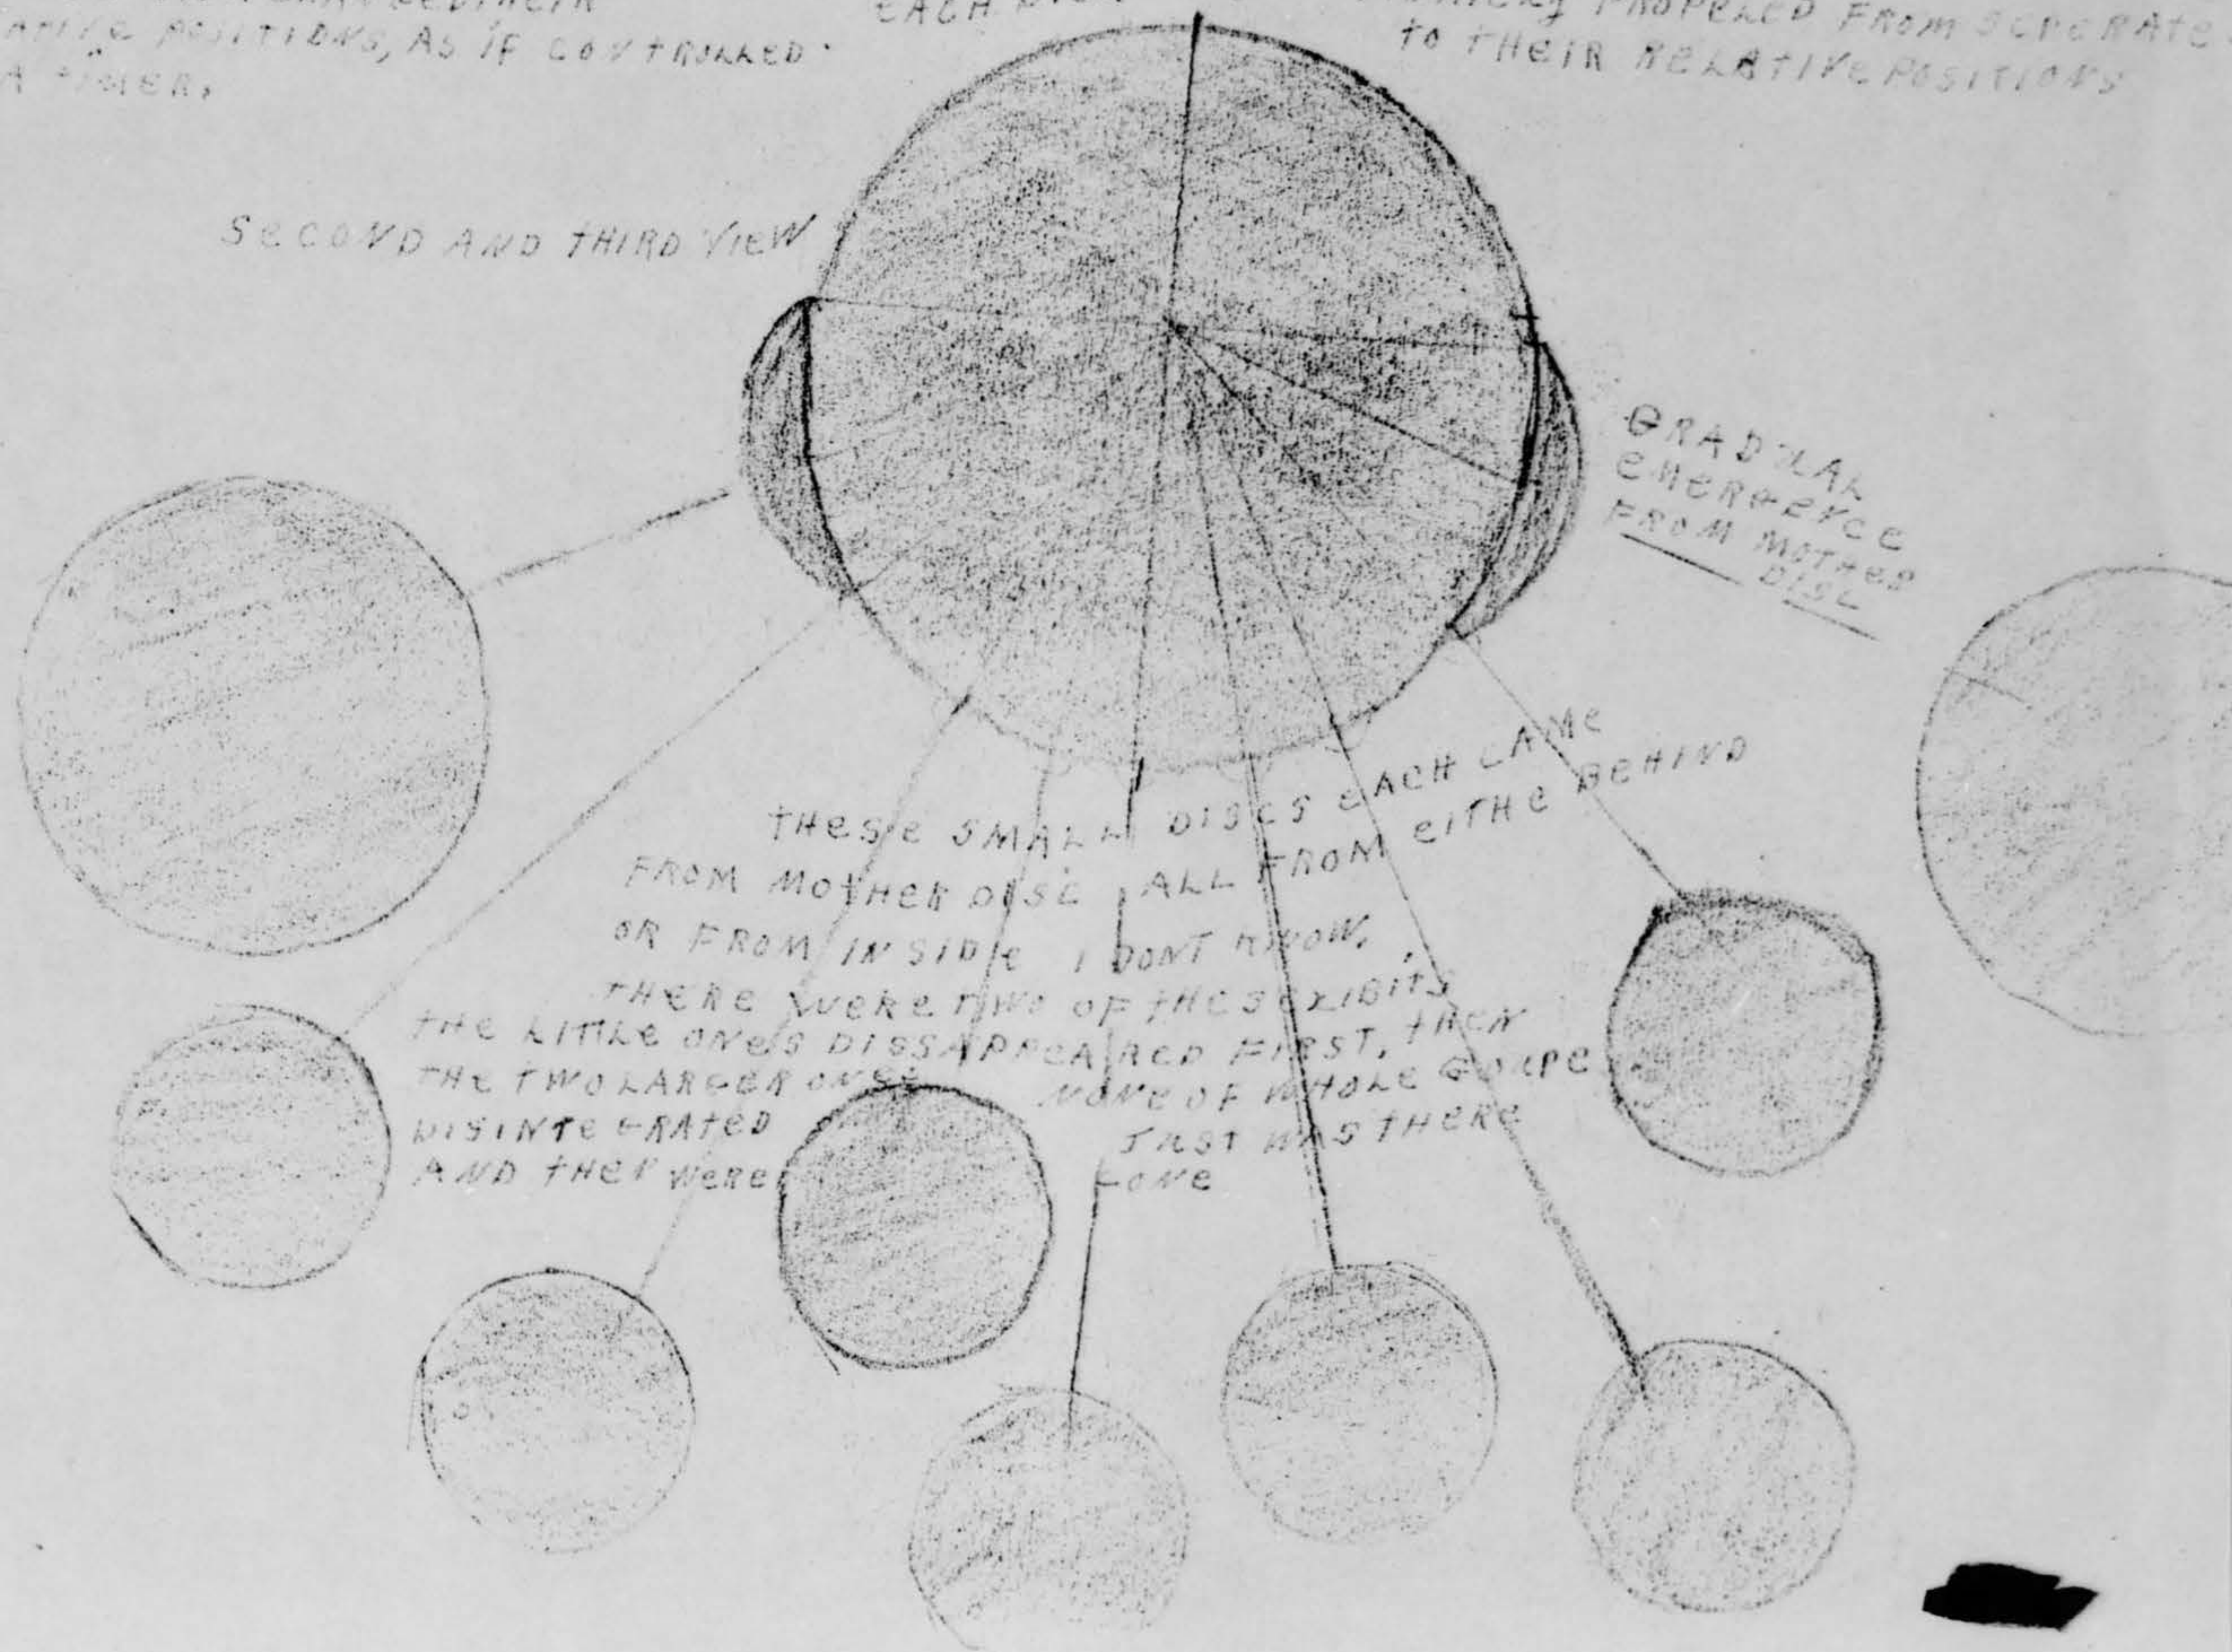

OCTOBER-1966, ON A WEDNESDAY BEFORE SUNRISE AT
 FIRST FEW SECONDS AFTER SUNRISE

EACH DISK WAS DEFINITELY PROPELLED FROM SEPARATE
 TO THEIR RELATIVE POSITIONS

SECOND AND THIRD VIEW

GRADUAL
 ENERGY
 FROM MOTHER
 DISC

THESE SMALL DISCS EACH CAME
 FROM MOTHER DISC, ALL FROM EITHER BEHIND
 OR FROM INSIDE I DON'T KNOW.
 THERE WERE TWO OF THESE OBJECTS
 THE LITTLE ONES DISAPPEARED FIRST, THEN
 THE TWO LARGER ONES. NONE OF WHOLE GROUP
 DISINTEGRATED. JUST WAS THERE
 AND THEY WERE GONE

NOTICE, EACH DISC SAME
PERHAPS CHARCOAL BLACK
THE REMARKABLE FEATURE OF
THIS PHENOMENA WAS THAT NONE
OF THESE EVER CHANGED THEIR
RELATIVE POSITIONS, AS IF CONTROLLED
BY A TIMER.

OCTOBER-1968, ON A WED. END BEFORE SUNRISE AND
FIRST FEW SECONDS AFTER SUNRISE

EACH DISK WAS DEFINITELY PROPELLED FROM SEPARATE
TO THEIR RELATIVE POSITIONS

SECOND AND THIRD VIEW

GRADUAL
CHANGES
FROM MOTHER
DISC

THESE SMALL DISCS EACH CAME
FROM MOTHER DISC, ALL FROM EITHER BEHIND
OR FROM INSIDE I DON'T KNOW.
THERE WERE TWO OF THESE OBJECTS
THE LITTLE ONES DISAPPEARED FIRST, THEN
THE TWO LARGER ONES. NONE OF WHOLE GROUP
DISINTEGRATED. LAST WAS THERE
AND THEY WERE
